

Eye-Level Digital Physician Scales

400 lb x 0.2 lb / 180 kg x 0.1 kg

These 59" (150 cm) high digital scales features the eye-level "at-a-glance" convenience of a battery-powered 0.5"/12.7 mm high-contrast LCD display. With the push of a button, readings appear in pounds OR kilograms and the weight display also calculates **Body Mass Index**. The 10.5" W x 14.5" D (27 cm W x 37 cm D) platform cover is easily removed for cleaning. Handpost and height rod combinations are also available. Please see the back page for different model numbers.

Detecto's eye-level digital physician scales feature the powerful 758C digital weight indicator, which has battery or AC power, patient ID storage, serial connectivity for output to a printer or PC, and a host of other useful functions and features detailed on the back page.

Detecto Digital Physician Scale Features

11:23, 10/15/05
 ID: 12548796

 Weight: 204 lb G

With the Enhanced 758C Digital Weight Display

SERIAL CONNECTIVITY PROVIDES:

OUTPUT TO PRINTER print weight, BMI, time, date, and height

SEND DATA TO PC excellent for efficient electronic medical record keeping

DETECTO'S EYE-LEVEL PHYSICIAN SCALE FEATURES THE 758C WEIGHT DISPLAY

Pushbutton and keypad tare, automatic display lock, and selectable units make the 758C the perfect choice for weight loss clinics, long-term care facilities or anywhere accurate weight is required.

BODY MASS INDEX

Body Mass Index (BMI) calculations have been shown to be an accurate estimate of health risk when used as part of a comprehensive health assessment. The 758C quickly calculates BMI by simply entering the patient's height while weighing.

SERIAL CONNECTIVITY

The 758C is the new standard for health care scale weight indicators. Serial connectivity (illustrated above) provides output to a PC or printer for efficient record keeping, useful for patient records in physicians' offices, weight loss clinics, or athletics. The new serial port allows output of the 758C's data directly to a printer by simply pressing the PRINT/ENTER key. The paper copy can be included in a patient's files.

PATIENT ID

Easily enter up to an 11-digit patient ID and print it along with the weight, time and date from a label printer or send the data to a PC.

MODEL	CAPACITY	DESCRIPTION
6437	400 lb x 0.2 lb / 180 kg x 0.1 kg	No Height Rod
6439	Same	With Height Rod
6449	Same	With Handpost and Ht. Rod
