OHAUS®

pH Meters

Starter series water analysis meters offer OHAUS precision and include basic meters to premium performance products with advanced functionality for measuring pH, conductivity, salinity, total dissolved solids & oxidation reduction potential.

Cultivating Scales

Combining intelligent performance with intuitive operation, the OHAUS Explorer® series has expanded on its modern features & design to offer unmatched functionality in a line of high performance balances unlike any other on the market.

Centrifugation

Frontier 5000 Multi-Pro Centrifuges are designed for universal use in virtually every application in research, industrial & clinical laboratories. A wide range of rotors & accessories allow for customized use in specific applications. Available in 5 models with capacities from low microliter to 6 x 250mL!

Process Scales

Designed to minimize distortion under heavy loads and ensure years of dependable performance, VX floor scales come complete with a durable T32XW washdown indicator. Features include RS232 interface, high-visibility backlit LCD display, counting function & easy-to-operate positive feedback keys.

Incubating Shakers

Incubating & Incubating Cooling Shakers are designed for applications that require consistent and precise results. Interchangeable blocks accommodate a wide variety of tubes and microplates. Easy-to-use color LCD touch screen allows users to save & visibly track progress.

Moisture Analysis

Designed to quickly & effectively measure moisture content, the OHAUS MB Series Moisture Analysers incorporate state-of-the-art halogen heating with precision weighing technology to give a fast and accurate method for moisture content determination.

Homogenization

Lysing Homogenizer offers efficient solutions for all grinding, lysing, pulverizing, mixing & homogenizing sample prep applications. High-throughput processing is ideal for multiple sample and tube configurations, while high speed linear motion processes samples quickly.

Direct Selling Scales

Designed for a wide range of Legal-for-Trade applications, the Class II and Class III certified SJX Carat and Gold balances are equipped with superior overload protection, large backlit display, fast stabilization time, multiple weighing units, application modes & connectivity options – for truly user-friendly weighing.
