CANNABIS
WEIGHING SOLUTIONS

From Clone to Commercial, Find your WEIGH

A&D Weighing

GROW YOUR BUSINESS THE RIGHT WAY

Learn how to grow your business with A&D Weighing solutions. No matter which part of the cannabis process your business is in, fast and accurate product weighing is a major factor in ensuring a high quality product.

Whether it's checking the bulk weight of plants, minimizing moisture content in dried buds or complying to legal for trade requirements in a retail dispensary, A&D Weighing has a solution to help you maximize profit and efficiency.
Feed and bulk weighing

HV-C Bench Scales

- NTEP & Measurement Canada Certified Class III e = d
- Built-in traffic light comparator for easy checkweighing
- IP65 weighing platform protects from accidental spills and contamination
- Optional RS-232 and USB to integrate with any system

Model	Capacity (lb)	Readability (lb)	Pan Size (in)
HV-15KC	6 / 15 / 30	0.002 / 0.005 / 0.01	9.8 x 9.8
HV-60KC	30 / 60 / 150	0.01 / 0.02 / 0.05	12.9 x 16.7
HV-200KC	150 / 300 / 500	0.05 / 0.1 / 0.2	15.3 x 20.8

GP High Precision Balance

- Enhanced weighing performance with SHS weighing technology
- Robust diecast aluminum body and IP65/NEMA4 for both dust and water
- Underhook for weighing large plants beneath the balance
- One Touch automatic internal calibration
- RS-232 for easy integration into your system
- Versatile stainless steel swing arm or detachable display

Model	Capacity (kg)	Readability (g)	Pan Size (in)
GP-12K	12	0.1	15.1 x 13.5
GP-20K	21	0.1	15.1 x 13.5
GP-30K / GP-30KS	31	0.1	15.1 x 13.5
GP-40K	41	0.5	15.1 x 13.5
GP-60K / GP-60KS	61	1	15.1 x 13.5
GP-61K / GP-61KS	61	0.1	15.1 x 13.5
GP-100K / GP-100KS	101	1	15.1 x 13.5

Quality Assurance of Stored Products

Moisture Analyzers

- Quickly ensure your moisture content to avoid mold & other microbial growth
- Reliable and even heating with Halogen lamps
- Customizable heat settings for a variety of tests
- Ability to test an array of samples whether solid, pasty or liquid

Model	Capacity (g)	Readability (g)	Temp Range (°C)
MX-50	51	0.001	50 - 200
MF-50	51	0.002	50 - 200
ML-50	51	0.005	50 - 200

Testing and Sample Preparation

- Reduce your risk with reliable testing equipment
- A wide selection of semi-micro and analytical balances for your sample preparation
- Built-in internal calibration and robust weighing sensor
- Robust and durable construction

Model	Capacity (g)	Readability (mg)
GR-202	42 / 210	0.01 / 0.1
GX-124A	122	0.1
GX-224A	220	0.1
GX-324A	320	0.1

Easily Integrate into POS systems

EK-i Compact Balances

- Compact, rugged design with stainless steel weigh pan
- Standard RS-232C port for easy integration into your systems
- Optional rechargeable battery for portable on-the-go weighing or when AC power is unavailable
- Optional underhook for weighing beneath the balance
- NTEP Certification for compliance with state requirements

Model	Capacity (g)	Readability (g)	Pan Size (in)	Class	e=d (g)
EK-600i	600	0.1	5.2 x 6.7	Class III	0.1
EK-1200i	1200	0.1	5.2 x 6.7	Class II	0.1
EK-6000i	6000	1	5.2 x 6.7	Class III	1.0
EK-12Ki	12000	1	5.2 x 6.7	Class II	1.0

FX-i Precision Balances

- Legal for Trade models in a variety of capacities and resolutions for compliance with state or provincial requirements
- Anti-static breeze break and robust SHS weighing sensor allows for stable measurements under any condition
- RS-232 and optional USB and Bluetooth interfaces make for seamless integration into your POS or inventory tracking systems
- IP65 versions available to keep out dust and moisture (WPN models)

Standard / Legal for Trade Certified	Waterproof / Legal for Trade Certified	Capacity (g)	Readability (g)	Pan Size (in)	Class	e (g)	d (g)

Product Inspection

Take quality control to new heights with A&D's full line of product inspection equipment. From checkweighers, metal detectors and X-ray, we offer HACCP compliant solutions that will accelerate efficiency and protect the bottom line.

A&D Inspection System Benefits

- Superior Accuracy – leveraging over 40 years of digital signal processing (DSP) excellence
- Designed for Maximum Uptime – modular components allow easy replacement
- User Interface Simplicity – designed to provide the best user experience for machine operators
- Onboard Report Generation – data at your fingertips
- Sanitary Design – angled steel and sloped surfaces provide optimal cleaning
- Ease of Integration – compact design and connectivity enable minimal retrofits to existing lines
